

Experience panoramic sound with Beam (Gen 2)

The new generation of Beam delivers richer, more immersive sound and support for Dolby Atmos - all from the same acoustic architecture. Enjoy easy control with the Sonos app, your existing TV remote, multiple voice assistants, Apple AirPlay 2, music service apps, and more.

- **Dolby Atmos:** Beam now delivers immersive audio with support for Dolby Atmos so you experience planes as if they were flying overhead, hear footsteps moving across the room, and feel the score all around you.
- **Enhanced Sound, Same Size:** A faster processor delivers more immersive sound with greater depth and clarity. Beam's improved phased speaker arrays steer and localize sound around the room for a lifelike experience. Now compatible with HDMI eARC on your TV, experience your favorite movies and games in even higher definition sound.
- **Sleeker Design:** Available in white or black, the new polycarbonate grille that's precisely perforated allows the speaker to sound great and blend seamlessly into your home, just like Sonos Arc.
- **Easy, More Secure Set-Up:** With just two cables and new NFC capabilities, setup is seamless and will have you listening in minutes. Simply open the Sonos app, follow a few prompts, and tap your phone to Beam.
- **Sustainable Sound:** The new Beam features sustainable packaging, including a premium uncoated kraft paper, a gift box made of 97% sustainable paper, and no single use foam.

Audio

Amplifiers

All five Class-D digital amplifiers have been perfectly tuned to the soundbar's unique acoustic architecture.

Tweeter

One center tweeter creates a crisp high-frequency response.

Midwoofers

Four elliptical midwoofers ensure faithful playback of mid-range frequencies and maximize low-end output.

Passive Radiators

Three passive radiators enhance low frequencies for balanced, powerful sound.

Microphone

The far-field microphone array uses advanced beamforming and multi-channel echo cancellation for quick and accurate voice control.

Adjustable EQ

Use the Sonos app to adjust bass, treble and loudness.

Trueplay

This software measures the acoustics of the room then fine-tunes the soundbar. Supported iOS device required.

Speech Enhancement

Boosts voice frequencies and clarifies dialogue.

Night Sound

Reduces the intensity of loud sounds and increases the level of quieter sounds.

Home Theater Audio Formats

Stereo PCM, Dolby Digital, Dolby Digital Plus, Dolby Atmos (Dolby Digital Plus), Dolby Atmos*, Dolby TrueHD*, Dolby Atmos (True HD)*, Multichannel PCM*, Dolby Multichannel PCM* (*HDMI eARC connection required.)

Details

Dimensions

25.63 x 3.94 x 2.72 in. (651 x 100 x 69 mm)

Weight

6.2 lbs (2.8kg)

Finish

Matte; Available in Black or White

Capacitive Controls

Tap to play, pause, adjust the volume and mute the microphones. LED indicates speaker and microphone status and adjusts based on room lighting to be visible but not distracting.

LEDs

Lights on the product indicate connection, mute status, microphone activation, and errors.

Power and Networking

WiFi

Connect to WiFi with any 802.11b/g/n/ac 2.4 or 5 GHz broadcast-capable router.

HDMI eARC

Connect to your TV's HDMI eARC/ARC port with the included HDMI cable. If your TV has an optical output only, use the included Sonos Optical Audio Adapter.

Ethernet

10/100 port for hardwiring to your router

Infrared (IR) Receiver

Syncs the soundbar with your TV remote for streamlined control

Voltage

100-240V 50/60Hz internal power supply

Sonos S2

Download the latest generation of the app to setup and control.

Apple AirPlay 2

Works with AirPlay 2 on Apple devices iOS 11.4 and higher.

Voice

Works with Amazon Alexa and Google Assistant
