Meet Sonos Port

The versatile streaming component for your stereo or receiver. Connect Port to your traditional stereo to stream music and more. Enjoy seamless control with the Sonos app or Apple AirPlay 2 and easily expand your sound system to more rooms.

- Stream music, podcasts, audiobooks, and internet radio on your amplified audio equipment.
- Use Apple AirPlay 2 to stream sound directly from your iPhone or iPad and ask Siri to play Apple Music.
- Use line-in to connect your CD or vinyl player to your Sonos system.
- Place on a shelf or easily mount it in an AV rack. The matte black finish complements your other audio equipment.
- Experience clearly-detailed sound through your wired speakers with the help of a sophisticated digital-to-analogue converter.
- Press play in the Sonos app and the 12V trigger will automatically turn your amplifier on for a more reliable way to listen.
- Enjoy hands-free control of your music and more using Amazon Alexa or the Google Assistant when connected to a smart device, such as Sonos One or Beam. Streamline control of your smart home using your phone, tablet, universal remote, keypad, or voice.
- When you're ready, it's easy to add Sonos speakers to your system and connect them over WiFi to enjoy listening in any room.

Audio

Audio line-in
Bring your record player, CD player, or other audio source into the Sonos ecosystem.

Audio line-out
Through either analogue (RCA) or digital (coaxial) for connecting amplified audio equipment.

12V trigger
Automatically turns on your stereo or receiver to get the music playing faster.

EQ
Adjustable bass and treble controls to optimise sound performance. Adjust volume by individual room or by groups of rooms.

Physical

Dimensions - H x W x D
1.6 x 5.4 x 5.4 inches (41 x 138 x 138 mm)

Product Finish
Matte black

Weight
1.04 lbs (0.472 kg)

Light
LED indicates status.

Power and Networking

Power Supply
Auto-switching 100-240 V, 50-60 Hz AC universal input.

Ethernet port
Two 10/100 Mbps Ethernet port. Wire directly to your router if WiFi is unreliable.
