

Enjoy great sound for any adventure with Sonos Roam

Sonos Roam is the portable smart speaker that sounds great at home and can be taken anywhere. With a compact, durable design and effortless streaming over WiFi and Bluetooth, Roam is our most versatile speaker yet.

- Enjoy richly detailed sound with the clarity, depth, and fullness you'd expect from a larger speaker. Automatic Trueplay™ tuning smartly adapts the sound to where you are and what you're listening to whether at home or on-the-go, so music, radio, podcasts, and audiobooks always sound exactly like they should.
- Roam's slim and curved silhouette blends beautifully into your home, while its lightweight and ergonomic shape makes it easy to handle and carry in any bag. Roam works seamlessly between WiFi and Bluetooth, connecting to your WiFi network when in range and automatically re-pairing with your phone via Bluetooth when you're away.
- Roam is ready for any adventure. With an IP67 rating, it's sealed from dust and fully waterproof. Silicone end caps protect it from accidental drops and turbulence in transit.
- Roam is ready to soundtrack your day with up to 10 hours of continuous playback on a single charge. Easily recharge with a custom magnetic wireless charger from Sonos available for £44, any Qi wireless charger, or by using the included USB-C cable. When not in use, Roam falls asleep and retains battery for up to 10 days.
- Connect Roam to your Sonos system at home and seamlessly group it with your other speakers. Create a stereo pair with two Roams in the same room for a wider, richer soundstage.
- With an all-new Sound Swap feature, you can hold play/pause to swap the music to the nearest speaker in your system, making it easy to keep the music going when you return home.
- Listen to more than 100 streaming services controlled from the Sonos S2 app, your voice with Amazon Alexa or Google Assistant, with Apple AirPlay 2, or directly from your favourite music service apps.

Audio

Two Class-H Amplifiers

Perfectly tuned to the drivers and speaker's unique acoustic architecture.

One Custom Racetrack Mid-Woofers

Ensures faithful playback of mid-range frequencies and maximises low-end output.

One Tweeter

Creates crisp, high frequencies.

High-Efficiency Motor

Increases power and range.

Adjustable EQ

Settings include bass, treble, and loudness.

Far-Field Microphone Array

Uses advanced beamforming and multi-channel echo cancellation to readily activate voice assistants.

Automatic Trueplay™ Tuning Technology

Uses spatial awareness to smartly adjust the sound for the speaker's orientation, location, and content. Available on WiFi and Bluetooth.

Physical

Dimensions

6.61 x 2.44 x 2.36 inches (168 x 62 x 60 mm)

Weight

0.95 lb (0.43 kg)

IP Rating

Rated IP67 for protection from dust and water. Can be submerged in up to 1m of water for 30 minutes.

Finish

Matte; Available in Shadow Black and Lunar White.

Top Panel Features

Tactile buttons make it easy to play, pause, skip and adjust volume, protecting against accidental presses.

LED Lights

Indicate speaker status, microphone status, battery status, and voice feedback.

Power and Networking

Battery

Provides up to 10 hours of continuous playback on a single charge and lasts up to 10 days in sleep mode.

Power Supply

USB-C port 15W, 5V/3A.

Recharging

Recharge with the included USB-C cable and a 2.1A USB power adapter, or a wireless Qi charger. Magnetically snaps to Sonos custom wireless charger, sold separately.

Wireless Connectivity

Connects to WiFi network with any 802.11b/g/n/ac 2.4 or 5 GHz broadcast-capable router.
