

# Experience Bold Bass with Sonos Sub (Gen 3)

The wireless subwoofer for deep bass. Connect Sub to any Sonos system for a more immersive home theater and music experience, controlled by the all-new Sonos S2 app.

- Sub (Gen 3) brings the same iconic design and bold bass with updated internals including increased memory, processing power, and a new wireless radio.
- Two force-canceling drivers at the center of Sub face inward to eliminate vibration and rattle, ensuring all you hear is pure bass.
- Add more dimension to your home theater listening when you pair Sub with the all-new Sonos Arc, Beam, Playbar, or Playbase. Enjoy surround sound when you expand your setup with a pair of Sonos Ones or One SLs.
- Trueplay puts the speaker-tuning capability of recording pros in the palm of your hands and optimizes the sound for your room.
- Sub's enduring design continues to fit perfectly into any space. Stand Sub upright, lay it on its side, or tuck it under the couch without any loss in sound performance.

## Audio

### Two Class-D digital amplifiers

Perfectly tuned to the acoustic architecture.

### Two force-canceling drivers

Face inward for powerful bass without any cabinet buzz or rattle.

### Dual acoustic ports
