

Experience Bold Bass with Sonos Sub (Gen 3)

The wireless subwoofer for deep bass. Connect Sub to any Sonos system for a more immersive home theatre and music experience, controlled by the all-new Sonos S2 app.

- Sub (Gen 3) brings the same iconic design and bold bass with updated internals including increased memory, processing power, and a new wireless radio.
- Two force-cancelling drivers at the centre of Sub face inwards to eliminate vibration and rattle, ensuring all you hear is pure bass.
- Add more dimension to your home theatre listening when you pair Sub with the all-new Sonos Arc, Beam, Playbar, or Playbase. Enjoy surround sound when you expand your setup with a pair of Sonos Ones or One SLs.
- Trueplay puts the speaker-tuning capability of recording pros in the palm of your hands and optimises the sound for your room.
- Sub's enduring design continues to fit perfectly into any space. Stand Sub upright, lay it on its side, or tuck it under the couch without any loss in sound performance.

Audio

Two Class-D digital amplifiers

Perfectly tuned to the acoustic architecture.

Two force-cancelling drivers
